Part number: 0000-0933: Punchdown
0000-0934: Solid Lid
0000-0935: Clear Lid

**Data outlet only included with 0000-0933*

Description

The IP66 Polycarbonate enclosure with steel back plate. For use with AP6521 with internal antenna, protects the Access Port/Point from the elements or damage and is perfect for enabling 802.11 networks to operate in harsh environments. This enclosure, made of Polycarbonate is extremely durable and rugged. The clear lid provides a view of the AP indicator lights.

The Back Plate can be adapted on request to suit additional hardware. i.e. Data converter, power supply.

Construction

Polycarbonate

- Removable Clear Lid facilitates component installation and maintenance.
- Gasket provides oil-tight and dust-tight seal against contaminants.

Detail:

- Light grey (RAL 7035), with an IP67 rating and a flammability rating of UL94-V2.
- Temperature range of the enclosure material is -40°C to +120°C, (+80°C for continuous use).
- Impact resistant, self extinguishing and resistant to most acids and alkalis

Included Components:

- Back Plate
- Fixing Screws.
- IP68 Glands
- Silicone seals
